NODEADLOCKBUT HEADWAY BY SLIM IN EGYPT

London, June 8 .- The reported Egyptian note, stated in the Egyptian press to have been handed to Field-Marshal Sir William Slim, British Chief of the Imperial General Staff, on his departure from Cairo on Tuesday, is believed in usually wellinformed quarters here to have been an official record of the military conversations in which he took part.

Foreign Minister, Salah El Din Bayy and press accounts of the Bey, denying that he has drafted decuments handed to Sir or despatched any note is William Sign 14 in well with the thought here to make it clear, known Ecyptian view on dethat Sir William Sim has re- fence questions. ceived only an official record of the Emptian standpoint as outlined in his defence talks with the Egyptian Staff.

EDITORIAL

The Dairy Farm's Future

THE Government's refusal to entertain the Dairy Farm's request for renewal of its Pokfulam farmland leases has, within it, all the makings of first-class controversy. Several reasons can be adduced for official obduracy, in the absence of any occasion for a closely argued explanation for the benefit of those outside the Company's orbit. The farmlands are in an exceedingly attractive area, on the south side of the Island, and occupy a large expanse of territory. Because of the development work carried out at the Dairy Farm's expense, provision of certain roads or lanes and by-ways, the region's translation into a series of building lots, which might be coveted by homebuilders reflecting on sea breezes in the summer, would be facilitated-and might result in substantial gains for the coffers of the Treasury. Quarrel with the judgment of Sir Patrick Abercrombie who regarded the Dairy Farm, apart from its very valuable present use, as not very auitable for a building scheme, is not difficult to assessors whose minds are made up. We have had so much of that. And even when millions of dollars are obtained from the sale of a site donated to the public sixty years earlier, not produce the new and better City Hall which goes as a promise with the deal. That, however, is by the way. Examination of the Government's decision will not include consideration of the use to be made of the revenue from land sales, should further representations fail. At concerns only the moral validity of the official policy. For more than sixty years, the Dairy Farm has rendered most valuable service to the community of Hongkoog. Its husiness interests have grown remark-

ably, to the point almost of converting its dairying into something of a sideshow. There is no evidence that that has been allowed to happen-the Company has taken pride in producing that important commodity, fresh misk, and whatever views are attributed to the medical authorities, the fact remains that supply has never been tuly equal to the demand. To destroy their farming activities after sixty years, some of them involving stress and strain, will leave a bad odour, on the assumption that it is correct to say that the soie interest of Government is to resume this extensive area for building purposes. Should other factors innuence the Government's attitude, they should be made public. Admittedly, the blow has not failen without warning. The Dairy Farm has been invited to survey alternative farm sites in the New Territories. Their finding that the suggested areas other cogent reasons must be accepted, be happier to be able to give approval without reservations.

were inadequate or not acceptable for together with their reluctance to consider spending the very large amount required to accomplish a successful transfer from Poktulam to the maintand. The Dairy Farm gives public service, the ICas of which would be sharply felt, but it remains a business undertaking. It so happens that two members of the Board of Directors are also members of the Legislative Council, and it would be interesting to see the issue debated in that chamber, not on the basis of a defence of vested interests, but on the soundness of official policy. The Government should not baulk if they have a better case than that so far disclosed. The public would

olque or gleaming sharkskin.

Pre-view reveals that autumn styles are still influenced by sleeves they are also the nincteen-twenties. Dustcoats have that "clutched" wrap- effective in velvet nylon around look with low fastenings, low necklines and low-slung two layers or shaded chiffon. half-belts.

Coachmen jackets are straight and brief with wide buttoned half-bells set almost at the hemline.

Suits are again straight and slim, but skirts are creeping upwards. Popular with buyers will be the man-tailored, handstitched suits in fine suitings. The "bell-hop" suit, trim and boyish, has a battle-bloure influence. The "Parisian" suit has large scooped-out revers filled in with neat fur cravats.

KANGAROO SKIRTS

Stole-mates are new in the utility range, with tallored skirts teamed with matching stole scarves. "Kangaroo" skirts have enormous front nouch pockets. Many suits are teamed with matching overcoats and include a plain and pleated skirt.

Reversible materials, "shot" effects in silk and wool, are popular. A new checked fabric called "Needlepoint" has a usually spot her passion for in leopard print shorts; and topestry effect. A magnificent crinkle ribbon makes a silk dress lace. She uses levely Italian concert soprane Juliana Larson which is uncrushable.

New colours are inspired by the wine cupboard. . . . Sherry brown, rich Rhum, warm Champagne, Cherry Brandy and Cremede-Menthe. Another popular new shade is forest green.

Black is top favourite again for street clothes with many light touches of orange. One tailored cont of black velour has collar and pockets dramatically backed with tangerine.

DUNGAREE TOPS.

Cocktail dresses are made in woven lames. Another exotic material is a shantung taffeta.

of the year? Early spring, of two course, when the sap begins to syrup, When the days are warm and sunny with enough of a frosty nip at night to entice the sugar maples to give their utmost.

When such days came a chubby red-cheeked little girl, meaning me, and a host of young relatives, used to go "sugcring-off." Trees tapped in the sugar orchard over the hill; brimming pails of sap carried laboriously to the "summer kitchen," and tipped into an enormous preserving kettle. A rousing woodfire in the slove, then a slow heat for hours, while the water in the sap slowly evaporated. At last-from many gallons of sap-a thickened syrup, real maple! If there was snow, we scooped up saucerfuls and poured the syrup over it. At that point grandmother always miraculously produced hot doughnuts, (which she evidently considered better for

us to cat than snow). It may have been because we worked so hard for it that the syrup tosted so good. But I suspect it's because maple syrup has that unique, enticing taste tart cooking apples to make 3 beloved all over the country, generous cupfuls. Add 11/4 c. WORRIES OF FLYNN

Hardly a week passes without rome spotlight being thrown on the private predicament of stars.

Even Errol Flynn, long a \$100,000-a-year man [approximately £33,000 at present rates! has his worries. He says he owes- the Government nearly £50,000 in back taxes, recks relief in the Los Angeles courts from £10,000-a-year alimony to his former wife, Lill Damita, and the £180 a month paid to ex-wife Nora Eddington for the support of his two daughters.

Dick Haymes, who is now whose crooning, gramophone records and film parts net him several hundred thousand dollars a year, owes the Govern-One victim said a gunman ment £10,000 in taxes, it was

UNEMPLOYMENT PAY

For thousands of the runof-tire-mill studio workers all there is to live on is their unemployment insurance pay, until that runs out.

Some of the more far-sighted top-line stars are now conmatulating themselves that they new this coming, and made their plans while the going was good. The business enterprises they bought, or started with savings from their fat pay envelopes, are now paying.

Brian, Atome, the former British star, is one of these.

He is owner of one of the bluggest vineyards in the Califernia desert.

Esther Williams is in the estaurant business, in the San Fernando Valley. Characteractor Leon Ames owns a car inles agency in Hollywood.

George Montgomery, Dinah Shore's husband, runs a profitable furniture factory.

Maureen O'Hara owns a dress -shop, catering to business girls with moderate incomes. Gail Patrick has an exclusive infants' wear establishment in fathionable Beverly Hills.

Even little Margaret O'Brien, law out of films for a while, will collect about £36,000 a year for several more years as a result of her commercial arrangements.

STILL POPULAR

Some of the old-timers have staged successful come-backs. Gloria Swanson's performance in "Sunset Boulevard" surpasses most of the . parts that won her tame thirty years ago.

Mae Murray, star of the silent screen in the early twenties, is packing a night club on the Sunset Strip, dancing the Merry Widow waltz that made her

Prague Treason Trial Ends

FOUR SENTENCED TO DEATH

Prague, June 8. — Four Czechoslovaks were sentenced to death and four to hard labour for life when the treason and espionage trial ended here tonight.

The remaining five of the 13 Czechs received sentences of hard labour ranging from 15 years to 28 years.

The State court found that all 13 had been guilty of charges of high treason and espionage.

The court, whose eight days' sessions were considered by observers here as a signal for further action against Western embassies in Prague, found that the 13 accused had conspired to overthrow the Czechoslovak Republic, that they had been in contact with foreign Powers directly and indirectly, and had delivered State secrets to foreign Powers and had permitted acts of esplonage-

GOLFER'S EGYPTIAN FIRST AMAZING **ENGLAND**

By ARCHIE QUICK

Africa dominated the scene on the opening day of the Worthing professional golf tournament, for British Open Champion Bobby Locke, of Johannesburg, broke the course record with an amazing round of 64, and Hassan Hassenein, the Egyptian Champion, had a grand 66 for his first round in England.

I think Hassenein's achievement was the greater, for not only was he in totally strange surroundings but the greens were quite different from those he is used to in Cairo. Nobody could have made a more spectacular

Godfrey Evans & Bailey Put On 161 Runs For Sixth Wicket Record

Manchester, June 8 .- The West Indies had the better of matters in a day of dramatic, fluctuating cricket, which finished with England having a first innings total of 312 runs and the West Indies 17 runs for no wickets in the first Test.

On a difficult pitch, England collapsed but recovered in thrills ing style. After the fall of five wickets for 88 runs, and with Len Hutton temporarily out of action with a damaged finger, the West Indies allowed the initiative to slip from their grasp.

Godfrey Evans, with 104 runs, his first Test century, and Trevor Bailey, who scored 82 runs not out, combined in adding 161 runs for a sixth wicket record for England versus West Indies Tests. . The previous best was 152 runs. Evans played a courageous, cavalier knock for two hours and 20 minutes

and his powerful hitting brought 16 fours. His only other century in first-class cricket was for the MCC against Otago in New Zealand in 1946-1947. Bailey played a sedate, defensively correct innings for three and a half hours, and he found some support from Len Hutton who, resuming after having

treatment for a finger damaged by a fast ball from Hines Johnson, made 39 runs. The hero of the West Indies was 20-year-old Alfred Valentine, the Jamaican slow bowler, who took eight wickets for 104 runs in 50 overs. He had five wickets for 34 runs at one stage and actually took the first eight wickets, but Ramadhin spoiled his change to become the first man in cricket history to secure all 10 wickets in a Test.

His eight wickets are believed to be the most ever taken by a cricketer playing in his first Test.

Polish-German Boundary Pact Is Denounced

KREMLIN; DICTATED **OBVIOUS**

Washington, June 8.—The United States today refused to recognise the "agreement" by Poland and Soviet-sponsored Eastern Germany fixing the disputed Oder-Neisse line as their "permanent" boundary. The State Department spokesman, Mr Michael McDermott, backed up in the strongest terms the statement by the United States High Commissioner in Germany, Mr John McCloy, which refused to recognise the Warsaw action.

dded .- Reuter.

"You have no doubt seen will not recognise the new 'McCloy's statement from Frankfurt on the announcement from Warsaw about the Oder-Neisse Line," said Mr McDermott.

"The State Department fully supports Mr McCloy's comment and wishes to underline the fact that an action of this nature, which sceks to determine the final boundaries of Germany, is not a subject which | ean be settled either unilarcially or bilaterally. It can only be settled at the time of the final peace settlement for Germany, when all boundary questions will be considered.

"Morcover, it is not a matter which can be settled by itpresentatives of the present regime, which has no real democratic basis and can in no way be said to speak for the German people, The United | States Government has never recognised in the past that the Oder-Nelsee boundary is the final eastern boundary of Germany and does not recognise the present move by the Polish Government and the East Ger-

man administration." The Department republished extracts from the Potsdam agreement and statements from Mr James Byrne and Gen. former George Marshall, Secretaries of State, to emphasise that the United States had atways insisted that final cettlement of the Western Polish frontler must await a peace settlement.—United Press.

SERIOUS QUESTIONS

New York, June B .-- The new East German-Polish agreement, including the Oder-Neisre Line as a permanent frontier between] countries, "obviously" dieated by Soviet Russia and was in violation of all wartime agreements, the New York Times said in an editorial

. The New York Times said that the agreement also raised sorigua; questions for the Western Powers, which were partners to the wartime agreements. "The Soviet purpose in this

deal is obvious. Having robbed Poland of its eastern half, Moscow seems to compensate Francisco. When completed, the mosaics will join the Poland by giving it one-fourth of Germany. "This has the double advan-

tage of riveting Poland to the Soviets, who mone are able to defend - that frontier, and of permitting the Soviets to angle for German allegiance by dangling before German eyes the possibility of a revision of the border, by the grace of the So-

Communists have been ordered to try to sell the Oder-Neisse Line as the 'frontier of peace,' all concerned know only too well that this 'peace frontier' is ns phoney as the whole Soviet peace ocensive," the naws-

Amerasia Case Reopened

Washington, June 8. - The New York Federal Grand Jury investigating espionage reopened the 1945 Amarasia "Stolen secrets" case, and has been hearing testimony from high Federal officials and FBI agents, Senator Homer Ferguson revealed today.

The disclosure came as Senate

investigators were told that the

late James Forrestal, when ho

was Secretary of the Navy,

might have been the man who

tsaued the delay order on the

prosecution case to avoid possi-

The order was overruled by

President Truman, however,

and six persons were arrested

on charges of having military

and diplomatic papers. Only

two were fined, leading to

A Congressional source said

the Grand Jury already had

heard James McInerney, Chief

The Grand Jury also was

"nid to be planning to question

Brig-Gen. Julius Holmes, for-

mer assistant Secretary of State

and now Minister to London,

land Mr James Vardaman, Jr.,

Earlier, Mr Vardaman had

denied entegorieally suggestions

by a State Department official

that he was responsible for

holding up the Amerasia case:-
